

KUNG FU

Each session provides different camp themes. Our classes will help your child achieve his or her best. Emphasis is on motor skills, self-esteem, self-control and self-defense using non-violent conflict resolutions

No prior training experience required.

CHINESE

The program offers children exposure to Chinese and Chinese American culture as well as language, through a variety of hands-on activities including dance, games, crafts and Chinese calligraphy

STEAM

Unleash the power of S.T.E.A.M. (science, technology, engineering, art, and math) and the Four Cs of 21st Century Learning (critical thinking, communication, collaboration, and creativity) this summer as you work on creative projects at the USAKFS for Art + Technology!

Session 1: Week one (6/10-6/14) and Week Two (6/17-/6/21)

Kung Fu ---Long Stick is most famous for its practicality and effectiveness. It is the said to be the father of all weapons. About 70% of staff techniques overlap with those of other long weapons, including spear, long handled sword, etc. It is known as one of the best defense weapons, for it is easy to obtain and use.

Science Project ---Teachers and children to do some creative scientific experiments to cultivate children's divergent thinking, creativity, imagination

Engineering Project --- Assembling robots can help their imagination, creativity, innovation, frustration, practical ability, thinking ability and ability to analyze and solve problems.

Session 2: Week one(6/24-6/28) and Week Two (7/1-7/5)

Kung Fu --- Sword is the ultimate warrior's weapon. It is the most widely used of all weapons and its influence goes beyond the field of Kung fu. Every school of Kung fu uses the sword as the basic weapon for rigorous training. It is a very adaptable weapon to different body types

Electronics Project --- Teach children to manually experience the design and build electrical working circuit models.

Chef's Kitchen- Cooking will allow children to learn how to make reasonable use of time and lay a foundation for mathematics. For example, a few cups of flour and a few cups of sugar are needed to make cakes. Math is a way of thinking and an essential method and ability for life. The kitchen is a good place to use mathematics. Cooking allows children to have good communication and teamwork.
